

LUXAR® Classic New Generation - Anti reflective coated picture glass

A clear view with LUXAR Classic (on the left) in comparison with non coated floatglass (on the right) – the viewer is seeing himself.

LUXAR® Classic New Generation uses Magnetron Sputtering technology to allow for the best values in terms of durability and elimination of reflection. As laminated VSG 2-2-1 it absorbs 99 % of UV light. LUXAR® Classic New Generation is available only on low iron floatglass.

Presented by
